PROFESSIONAL SUMMARY

Aspiring tech professional and recent B.Sc. Information Technology graduate with a passion for bridging the gap between complex software solutions and enterprise-level user engagement. Proven track record in full-stack development (Django/Flutter) and ICT support at the Kenya Revenue Authority. Highly resilient, adaptable, and a dedicated lifelong learner—currently mastering French to expand global communication capabilities. Eager to leverage a technical "problem-solver" mindset to nurture B2B relationships and drive marketing innovation at InEvent.

PROFESSIONAL EXPERIENCE

Lead Developer, Independent Software Projects 2025 – Present

- **Verdelle Nails:** Developed and deployed a full-stack web application using Django and React, managing the end-to-end lifecycle from development to Vercel deployment. Remote
- **Binova:** Engineered a mobile solution using Flutter and Firebase, focusing on creating seamless user experiences.
- **Key Takeaway:** Developed an "owner's mindset" by managing projects from a technical and user-growth perspective.

ICT Professional Intern, Kenya Revenue Authority (KRA) 02/2026 – 03/2026

- Provided critical user support for the iTax portal, managing high-pressure troubleshooting for diverse stakeholders. Kenya
- Maintained robust network infrastructure and hardware, ensuring zero downtime for essential enterprise operations.
- Collaborated within a fast-paced government environment, requiring strict multitasking and professional resilience.

EDUCATION

Bachelor of Science in Information Technology, Kabarak University 2026

- Completed all coursework with a focus on Software Engineering, Cybersecurity, and Data Systems. Kenya
- Active participant in technical assessments and global data science school applications (DSA 2026).

TECHNICAL SKILLS & TOOLS

Development

- Python (Django)
- Dart (Flutter)
- JavaScript (React)

Collaboration

- Git/GitHub
- Project Documentation
- Remote Team Workflows

Operations

- Linux (Pop!_OS)
- Docker
- CI/CD Pipelines
- Windows System Customization

CORE COMPETENCIES

English

- Fluent
- Professional, global-first communication style

French

Currently mastering to expand global communication capabilities

VOLUNTEER & PERSONAL INTERESTS

Language Learning

Actively pursuing French proficiency to better navigate international B2B markets.

Strategic Analysis

Enthusiastic Fantasy Premier League participant, using player statistics and data trends to inform strategic decision-making.

Creative Collaboration

Partnered on whiteboard animation scripts, demonstrating an ability to translate complex ideas into engaging visual stories.
